

Fun and Educational Activities Guided by the City of Memphis Storm Water Department!

It's our job!

Did you know we are required by the state to raise Storm Water Awareness? Classroom activities help students, teachers, and the City! Materials, school supplies, and giveaways are provided.

We can tailor activities to enhance your curriculum.

But these services are only available to schools in City Limits!

Watershed Model!

*A large interactive model that shows how pollution is transferred through the watershed by rain
All grades!*

*Lil Pollution Preventers Art Contest!
PK-5th grade*

Schoolyard Hydrology!

Students are guided to draw age-appropriate topography of their schoolyard and learn the path of water flow.

Storm drain marking!

Scientist for a Day!

*In-class water testing
Grades 5 and up*

Story Time!

*Water pollution themed children's books read aloud for
Pre-K to 3rd grade*

*Junior Water Warriors!
6th-8th grade*

*Green Camp Summer Program!
9th-12th*

Power Point Presentation!

A presentation showing sources of storm water pollution and some ways to reduce it.

Schoolyard cleanup!

Field Trips!

*Virtual field trips to waterways for chemical & biological water testing
